

INTERNSHIP IN GERMANY

Intern Community Manager in Munich

Our partner App helps people to safely and responsibly take their medication. Our partner works with patients and patient groups, doctors and medical associations, academic research partners and leading players from the healthcare industry.

DESCRIPTION

Looking for interns from :
Denmark, Norway, Sweden, Portugal, Russia, UK/US
for at least 3 Months.

Your responsibilities include:

- communicating with users from your home country, i.e. patients and healthcare professionals
- conducting research on market conditions and local competition
- observing local media presence and news coverage
- tailoring our social media and advertising campaigns to appropriate target audiences

You will best match our partner requirements if you...

- are a native speaker of one of the countries and possess outstanding written and oral communication skills with a talent for clear, precise and incisive language.
- have studied at a university or similar for at least 2 semesters and ideally have gained some first professional experience.
- can connect to a digital product that eases the life of patients .
- enjoy spreading the word and being the first contact for fans and critics alike.
- want to learn more about app development and eHealth.

DETAILS
